

Platform

The conference will be organized by using the **Cisco Webex platform** – we thank the University of Bucharest for providing us support and licenses for hosting the sessions.

The programme of the conference will respect the traditional format. There will be several plenary talks and parallel sessions, which can be accessed by using the links already received by the participants.

The meetings will start according to the **programme** ([see e-mail and website of the conference](#)).

You already received by e-mail the links, an invitation to join the meetings - we recommend you to save these e-mails, for an easier access.

Technical support

If, in the days of the conference, you encounter any technical problems (the link does not work, you did not receive or you deleted the e-mail with the invitation, you cannot install the Webex app, etc.) please contact Rares Cristea (e-mail rares.cristea@it.unibuc.ro) or Adrian Florea (e-mail adrian.florea@unibuc.ro).

About the presentations

Oral presentation: will last 15 minutes (including the discussions).

Poster: will last 5 minutes (including the discussions), supported by 1-2 slides.

Very important – please check the time zone difference!

Since this is an online conference, we need to consider the time zone differences. In the programme, all times are displayed in the EEST/Bucharest time (GMT+3). Please use a time zone converter (here is such a [link](#)) for synchronization with your time zone.
